Office Action Summary

1. An amendment (Paper No. 9) has been filed on December 9, 2002.
2. Claims 1-15 and 17 are under examination.
3. Rejection of claims 16, 1 and 2 (see item 4 of prior Office action, Paper No. 7) is now withdrawn.
4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 1-15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bastoli et al (EP 0722980) in view of Mayer et al (Biodegradable blends... J. Macro. Sci, vol. a 32, No. 4, 1995, pp. 775-785) and JP 07102114.

Please see item 6 of same Office action for this rejection.

Applicant's arguments filed December 9, 2002 (Paper No. 9) have been fully considered but they are not persuasive.

Applicants' argument (page 7) that JP '114 does not teach role of additives to regulate pH is not persuasive since it is reasonable to assume that additives of JP'114 do improve strength and also regulate pH.

Applicants' arguments based on amounts of plasticizer taught by prior art are also not persuasive. It is within the expertise of one to vary the amounts to achieve optimum results.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
